04/2026

Udemy – Introduction to openAI API & ChatGPT API
04/2026

Udemy – AWS Certified Cloud Practitioner – AWS Certification
09/2025

Google Cloud Certified- Professional Network Engineer
08/2023

PROFESSIONAL SUMMARY

Cloud Cloud DevOps Engineer with **8+ years of experience** in cloud infrastructure, networking, DevOps, Infrastructure as Code, Kubernetes, and cloud migration across **Azure, AWS, and GCP**. Experienced in designing and provisioning secure, scalable cloud infrastructure and automating deployments using **Terraform, GitHub Actions, and CI/CD pipelines**, with hands-on experience managing Kubernetes and AKS environments.

Exposure to **Generative AI, Prompt Engineering, GitHub Copilot, and OpenAI/ChatGPT APIs**, with an interest in applying AI to DevOps automation, infrastructure management, troubleshooting, and operational workflows. Hands-on experience in **on-premises to cloud migration**, including discovery and assessment, cloud architecture, VM and database provisioning, storage, network and firewall configuration, migration setup, change management, and migration coordination.

SKILLS

- Cloud DevOps
- Linux
- Docker
- Azure Kubernetes
- GCP network and AWS network
- Azure network
- Terraform
- Git Hub
- Service Now
- Cloud DNS
- CI CD
- Incident and Change Management
- Azure/AWS/GCP

WORK HISTORY

26th December 2025 - Current
TATA CONSULTANCY SERVICES LTD. – Cloud DevOps Engineer, Noida

- Manage **Azure, AWS and GCP cloud infrastructure**, including VPC/VNet, subnets, routing, security groups, NSGs, firewall rules, VPN, load balancing, and DNS.
- Support **AWS cloud networking and infrastructure**, including VPC/subnet creation, Security Group configuration, route configuration, and VM/EC2 builds.

Cisco certified Network Associate (CCNA), CSC014125229
08/2022

SDWAN certified and Black belt Meraki Certified
02/2024

EDUCATION

B. TECH, ECE
NIET, Greater Noida, India
June 2017

INTERESTS

Travelling

Dancing

- Support **on-premises to cloud migration projects** covering discovery and assessment, architecture creation, VM/database builds, storage, network and firewall configuration, migration setup, change management, and migration coordination.
- Automate infrastructure provisioning using **Terraform and GitHub Actions**, supporting CI/CD pipelines and Infrastructure as Code practices.
- Manage **Kubernetes/AKS environments**, including cluster upgrades, node pools, deployments, scaling, persistent storage, RBAC, Blue/Green deployments, and rollback activities.
- Leverage **Generative AI, GitHub Copilot, and prompt engineering** for Terraform scripting, automation, troubleshooting, technical documentation, and other DevOps productivity use cases.

28th November 2022 – 20th December 2024

- **HCL TECHNOLOGIES - Cloud Specialist**, Noida

  Managed **Azure and GCP cloud infrastructure and networking**, including VNets/VPCs, subnets, NSGs, firewall rules, VPN, Cloud Router, Private Service Connect, and VPC Service Controls.
- Configured **ExpressRoute, Application Gateway, load balancing, DNS, and SSL certificates** to support secure and highly available application environments.
- Provisioned and modified cloud infrastructure using **Terraform**, with GitHub-based infrastructure management and CI/CD automation.
- Supported **Docker, Kubernetes, and AKS** environments, including container deployments, cluster operations, node management, and application troubleshooting.
- Administered Linux environments and performed monitoring, incident troubleshooting, and change management using **Splunk, Azure monitoring, and Service Now**.

3rd Nov 2021 – 27th November 2022
WIPRO TECHNOLOGIES - Cloud Network Engineer, Greater Noida

26th April 2019 – 2nd Nov 2021
Pooja Enterprises - Cloud Network Engineer (Client Wipro)

- Managed **GCP cloud networking** including VPCs, subnets, firewall rules, VPN tunnels, Cloud Router, DNS, and load balancing.
- Supported connectivity between **on-premises and cloud environments**, implementing network and security configurations based on application requirements.
- Troubleshot cloud networking, routing, firewall, VPN, and connectivity issues across enterprise environments.
- Supported cloud infrastructure provisioning, network implementation, migration activities, and production changes.
- Managed incidents and changes through **ServiceNow** and collaborated with application, security, infrastructure, and operations teams.

27th March 2018 – 23rd April 2019
GLOBAL NETWORKS - TECHNICAL & NETWORK SUPPORT ENG., Noida

- Provided technical and network support for enterprise infrastructure and resolved connectivity and system-related incidents.
- Monitored network and system environments and performed troubleshooting to maintain service availability.
- Supported network connectivity, infrastructure configuration, and routine system administration activities.
- Investigated incidents and coordinated with internal teams to implement technical resolutions.
- Performed infrastructure maintenance and configuration changes following defined operational procedures.
